Portfolio

SUMMARY

- **Full Stack** Developer focused on building digital solutions for real-world challenges. Proficient in **Node.js, React, and TypeScript**. Experienced in managing the full development lifecycle, from designing user-friendly interfaces to architecting secure backend systems and streamlining deployment.

EXPERIMENTS AND PROJECTS

Pokla Ai, *AI-powered Halal compliance and personalized nutrition assistant.* 03/2026 – Present

- Engineered a production-ready dashboard from scratch using **SOLID** principles and **ShadcnUI** for a high-performance, minimalist UI. Optimized API performance and security using **TanStack Query**, **JWT**, and **Protected Routes**.

HMHY CRM-system, *LMS ecosystem with Admin/Teacher panels and Telegram Mini App for students.* 12/2025 – 01/2026

- Built a complete LMS ecosystem (Admin/Teacher panels & Telegram Mini App) independently. Integrated **Google OAuth 2.0** and optimized data flow with **PostgreSQL** and **Redis** caching. Developed UI using **React + Vite**, **TanStack Query**, and **ShadcnUI** for high-speed performance.

Inter-Taxi, 11/2025 – 01/2026

Point-to-point interregional taxi service with unique service standards.

- Built the frontend based on **Figma** and integrated all **REST API** endpoints. Integrated a **real-time map** and developed a secure **Admin login** system. Managed backend data flow using **Nest.js** and **PostgreSQL**.

So'rovnima App , 03/2026 – 03/2026

Automated startup validation and market research platform.

Developed a startup validation platform using Next.js and TypeScript to automate market research and demand analysis. Integrated Neon PostgreSQL for centralized data storage and real-time statistical processing. Built a mobile-first UI with Tailwind CSS, replacing manual paper-based surveys with an automated digital workflow.

ACHIEVEMENTS AND CERTIFICATES

Bootcamp Full-Stack

- A certificate issued by Najot Ta'lim for completing the course within 8 months.

JLPT N5 (Japanese Language Proficiency Test)

- International Certificate of Japanese Language Proficiency (Basic Level).

EDUCATION

Najot Ta'lim 12/2024 – 01/2026 | Toshkent

Bootcamp foundation and Bootcamp full-stack courses

SKILLS & INTERESTS

Frontend — React.js, Next.js , TypeScript, TanStack Query, Zustand, Redux Toolkit, Tailwind CSS, Shadcn/ui, Material UI.

Backend — Node.js, Nest.js, Express.js, PostgreSQL, Prisma, TypeORM, RESTful APIs, GraphQL, WebSockets.

DevOps & Tools — Docker, CI/CD, PM2, Vite, Git/GitHub.

soft — Leadership & Teamwork, Deadline Management, Fast Learner & Adaptable, Problem Solving, Stress Tolerance
